NORTH WESTERN RAILWAY

HQ Office,
Jaipur
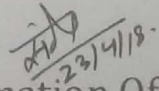

LETTER OF APPRECIATION

This is to certify that Mr. Aakash Goyal, Owner of Learnbiz Simulations (LLP) in collaboration with North Western Railway has developed a web application/Software called '**Block Management System**' which is being used effectively for demanding and granting of Traffic Blocks enabling proper record keeping. He has contributed in purely pro-bono mode and his work comes under the ambit of Corporate Social Responsibility (CSR) of his organisation.

Use of IT Technology in managing the traffic blocks also helps in smooth functioning of train operations along with desired maintenance blocks.

I am thankful for his contribution in Railways IT and to digitalize such a tedious process of demand & grants of Blocks.

Dated: 23.04.2018

Chief Information Officer
